Township 13 N. R. 18 W. — Between Ranges 18 and 19 E. 14 P.M.

General Description

This Township is nearly all high dry broken Prairie destitute of Timber and Water, though the South Branch of South Fork runs through the S.E. part along which there is some Cottonwood and Elm timber. I saw no land adapted to agriculture more on account of the dryness of the soil, than its Composition.
