This and all the fore-going Townships could be described in the same words. viz. a high rolling Prairie, with a good soil, producing a fine nutritious grass for pasturage, but the almost entire absence of water, and the exceedingly dry climate will forever prevent its being brought into use, unless some artificials means can be employed for obtaining water

We hereby certify that we assisted Hiram C Fellows, deputy Surveyor in Surveying the exterior boundaries of Townships No 15 & 16 North of the base line of Ranges 30. 31. 32. 33 34. 35. 37. 38 & fract 39, also Township 16 North of Range 36. all north of the base line, and West of the 6th Principal Meridian in the State of Nebraska and that said Townships have been in all respects, to the best of our knowledge & belief, well and faithfully Surveyed, and the boundary monuments planted according to the instructions furnished by the Surveyor General.
