The

General Description

The land in this Township is generally undulating and all prairie except a narrow skirt of elm, ash and cottonwood timber along the creek which runs through the Township from South West to North East. The Soil generally is only second rate, in the bottoms it is better, though it could hardly be called first rate

List of Names

A list of the names of the individuals employed to assist in running meandering marking the lines and corners described in the foregoing field notes of Township No 8. North of the base line of range No. 4 West of the 6th Principal Meridian, showing the respective capacities in which they acted
