Township 26 N. R. 6 W of 6th Prin. Mer.

General Description

The land in this Township is rolling; mostly 2nd rate quality. There is some 3rd rate land which is not very well adapted to farming. The surface is rolling and apt to wash when cultivated. We found no water within the Township. There is a scarcity of Timber. We only found scattering Elm and Oak trees along the banks of a ravine bearing S.E through Sec. 32. No stone in the Township.

General Description
This Township contains a large
amount of good 2nd rate land
there is some 3rd & 2 rate land which
is not very well adapted to farm-
ming
We found no water in the
Township except on the line
between sec! 3 and 4 and between
4 and 5 where a branch 5 lks
wide. Which contains good clear
water. runs N. W. into Township

29. N. I found a very good quality of Limestone in Sec 4.
