General Description

The Surface of this fractional township is mode[illegible] rolling prairie, alternating with level creek bo[illegible] tons and meadow lands. The Soil is a dark sand[illegible] loam, from 12, to 24 in deep with, clay subsoil, It is well adapted to the production of Corn, whe[illegible] hay and vegetables, and is Rr rate, All lands a[illegible] dry and arable except those noted as meadow lan[illegible] which are too moist for cultivation, in ordin[illegible] Seasons, but are valuable hay lands, producing f[illegible] 1 to 2 tons of red top and blue joint hay per acre, Logan creek in the Western part of the township, and Middle Creek in the Eastern part, furnish a[illegible] abundance of water for all purposes, and a fa[illegible] supply is furnished by springs and water hol[illegible] in other localities, The bottoms of the Loga[illegible] are subject to occasional over flow, the wate[illegible] subsiding in time for Corn planting, Logan cre[illegible] is 30 ft wide with slow current and alluvial ba[illegible] and the stream is about 20 ft below the banks, [illegible] waters 4 ft deep in the summer time.

List of Names

A list of the names of the individuals employed to assist in running measuring or marking the line and corners described in the foregoing field notes of fractional township No 25 North, of Range No 6 East of the 6th Principal Meridian, included within the boundaries of the Winnebago Indian Reservation, Showing the respective Capacities in which they acted:

A. H. Wilcox,	Compassman,
C. W. Towns,	Compassman,
J. A. Price,	Chainman.
William Lindley,	Chainman,
J. H. Stewart,	Chainman,
Calvin Fague,	Chainman,
Wm McDavit,	Flagman,
T. T. Bennett,	Moundman,
Anthony Benson,	Moundman,
Frank Campbell,	Moundman,
Charles J. Roche,	Moundman,
Michael Fague	Moundman

Township No 25 North, of Range

No 6 East of the 6th Principal Meridian

Certificate of Assistant

We hereby certify that we assisted J. W. Beaman U. S. Deputy Surveyor, in surveying the Sectional lines of Township No. 25 North of the base line of Range 6 East of the 6th Principal Meridian also the Sectional Subdivisional lines, of Secs. 1, 5 and 6, of Township No 25 North, of Range No. 6 East of the 6th Principal Meridian, all included within the boundaries of the Winnebago Indian Reservation, and that said lines have been in all respects to the best of our knowledge and belief well and faithfully surveyed and the boundary monuments planted according to the instructions of the Surveyor General.

A. H. Wilcox — Compassman

Subscribed and sworn to, by the above named persons, before me, a Justice of the Place, for the County of Dakota, in the State of Nebraska, this 28th day of June, 1875.

A. C. Manchester

Justice of the Place

Affidavit.

I, John M. Brown, Deputy Surveyor, do solemnly swear that in pursuance of a contract with E. G. Cunningham, Surveyor of the public land of the United States, in the States of Iowa and Nebraska; bearing date the 6th day of October, 1874, and in strict conformity to the laws of the United States, and the instructions furnished by the said Surveyor General; I have faithfully surveyed the section lines and the sectional subdivisional lines of fractional township No 25 North of the base line, of Range No 6 East of the 6th Principal Meridian included within the boundaries of the Winnebago Indian Reservation, in the State of Nebraska, and do further solemnly swear that the foregoing are the true and original field notes of such survey.

I John W. Beaman Deputy Surveyor do solemnly swear that in pursuance of a contract with E. E. Cunningham Surveyor General for the Districts of Nebraska and Iowa bearing date the 6th day of October 1874 I have well faithfully & truly and in strict conformity with the instructions furnished by the Surveyor General, the Surveying Warrant and the Laws of the United States surveyed all those parts of the of fractional Township 25 North of the Base Line of Range No 6 East of the 6th Principal Meridian as are represented in the forgoing field notes as having been surveyed under my direction. And I do further solemnly swear that all the corners of said survey have been established & perpetuated in strict accordance with the Surveying Warrant printed instructions, and special instructions of the Surveyor General of dimensions, character, construction, and marking and in the manner specifically described in the forgoing field notes, and that the forgoing are the true and original field notes of such survey.

J. W. Beaman

Subscribed in my presence and sworn to before me at Omaha Douglas County Nebraska this the 24 day of July A.D. 1875

Jas. M. Chapman
Notary Public

Surveyor Generals Office
Plattsmouth Nebr Feby 21st 1878

The forgoing field Notes of the Survey and Subdivision into 40 acre tracts of fractional Township No 25 North of the Base Line of Range No 6 East of the 6th Principal Meridian in the Winnebago Indian Reservation in the State of Nebraska executed by J. W. Beaman under his contract No 87 dated October 6th 1874 in the month of June 1875 having been critically examined the necessary corrections and explanations made the said field notes and the Survey they describe are hereby approved

Jno. H. Clark
Surveyor General

Field notes of the section lines and the lines subdividing sections of Township number 26 north of Range number 6 East of the 6th Principal Meridian included within the Winnebago Reservation Nebraska.

Surveyed by John M Beaman U.S. Deputy Surveyor under his contract No 87 bearing date October 6th 1874

Survey Commenced June 4th 1875
Survey Completed June 22nd 1875

June 12th 1875

General Description

The surface of this township is moderately rolling prairie. alternating with level creek bottom and meadow lands.

The soil is a dark sandy loam. from 12 to 24 inches deep with clay subsoil. well adapted to cultivation of corn wheat hay and vegetables. 1st rate

All lands are dry and arable except those indicated as meadow lands which are rather too moist for the plow in ordinary seasons but are valuable hay lands and will produce from one to two tons per acre. of red top and blue joint hay. The bottom lands of the Logan creek in the south west corner of the township are subject to occasional overflows by spring freshets but they usually subside in time for corn planting.

Township No 26 North, of Range

Water. The Logan in the S.W. and Middle Creek in the East furnish water in abundance for stock and other purposes. While a fair supply is furnished by springs and water holes in various other locations.

The Logan is 30 ft wide with slow current and alluvial banks. the bed of the stream is about twenty feet below the level of the creek bottom, with a depth of water of about 4 ft. in the summer season

No 6 East of the 6th Principal Meridian

List of Names

A list of the names of the individuals employed, to assist in running, measuring, or marking the lines and corners, described in the foregoing field note, of township No 26 North of the base line, of Range No 6 East of the 6th Principal Meridian, included within the boundaries of the Winnebago Indian Reservation, showing the respective capacities in which they acted.

Affidavit.

I, John H. Brauan, Deputy Surveyor solemnly swear that, in pursuance of a contract with, C. E. Cunningham, Surveyor of the Public lands of the United States, in the State of Iowa & Nebraska, bearing date the 6th day of October, 1874, and in strict conformity to the laws of the United States and the instructions furnished by the said Surveyor General, I have faithfully surveyed the section lines and the sectional subdivisional lines of township No. 26 North of the base line, of Range No 6 East of the 6th Principal Meridian, included within the boundaries of the Winnebago Indian Reservation, in the State of Nebraska, and further solemnly swear that the foregoing are the true and original field notes of such survey.

I John W. Beaman Deputy Surveyor, do solemnly swear that, in pursuance of a contract with E. E. Cummings Surveyor General for the District of Nebraska and Iowa bearing date the 6th day of October 1874.

I have well, faithfully, and truly, and in strict conformity with the instructions furnished by the Surveyor General the Surveying Manual and the Laws of the United States, surveyed all those parts or portions of Township 26 North of the Base Line of Range No 6 East of the 6th Principal Meridian as are represented in the foregoing field notes as having been surveyed under my direction.

And I do further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the Surveying Manual, printed instructions and special instructions of the Surveyor General of dimensions, character, construction, and marking and in the manner specifically described in the foregoing field notes and that the foregoing are the true and original field notes of such survey.

J. W. Beaman

Subscribed in my presence and sworn to before me in Cass County Nebraska this the 24 day of July A.D. 1875

Saml M. Chapman
Notary Public

Surveyor Generals Office
Plattsmouth Neb Feby 21st 1876

The foregoing field Notes of the Survey and Subdivision into 40 acre tracts of Township No 26 North of the Base Line of Range No 6 East of the 6th Principal Meridian in the Winnebago Indian Reservation in the State of Nebraska executed by John W. Beaman under his contract No 87 dated October 6th 1874 in the Month of June 1875 having been critically examined the necessary corrections and explanations made the said field Notes and the Surveys they describe are hereby approved

Jno. R. Clark
Surveyor General

Dakota

Field notes of the section lines, and the lines subdividing sections of fractional Township number 27 north of Range number 6 east of the 6th Principal Meridian included within the Winnebago Reservation Nebraska.

Surveyed by John M. Beaman U.S. Deputy Surveyor under his contract No 87 bearing date October 6th 1874

Survey Commenced, June 7th 1875
Survey Completed, June 16th 1875

Township No 27 North of Range No 6 East of the 6th Principal Meridian

General Description

The surface of this township is rolling prairie and level meadow lands. Soil dark loam. Slightly sandy from 12 to 24 inches deep with clay subsoil. Well adapted to general agricultural purposes. All dry and arable. Except those noted as meadow lands. Which are rather moist for grain but are valuable for hay.

Water. Scarce on surface but can be obtained by digging 4 or 5 ft in the meadows.

List of Names.

A list of the names of the individuals, employed, to assist in running, measuring, or marking the lines and corners, described in the foregoing field notes, of fractional Township No 27 North, of Range No 6 East of the 6th Principal Meridian, included within the boundaries of the Minnebago Indian Reservation, showing the respective capacities in which acted:

Alvin H. Wilcox,	Comparseman,
C. W. Jones,	Comparseman,
J. A. Pierce,	Chainman,
William Lindley,	Chainman,
J. H. Stewart,	Chainman,
Calvin Fague,	Chainman,

Affidavit.

I, John N. Brauer, Deputy Surveyor, do solemnly swear, that in pursuance of a contract with E. E. Cunningham, Surveyor of the Public lands of the United States, in the State of Iowa and Nebraska, bearing date the 6th day of October 1874, and in strict conformity to the laws of the United States, and the instructions furnished by the said Surveyor General; I have faithfully surveyed the section lines and the sectional subdivisional lines of fractional Township No 27 North of the base line, of Range No 6 East of the 6th Principal Meridian, included within the boundaries of the Winnebago Indian Reservation, in the State of Nebraska, and do further solemnly swear that the foregoing are the true and original field notes of such survey.

I John W Beaman Deputy Surveyor do solemnly swear that in pursuance of a Contract with E. E. Cunningham Surveyor General for the District of Nebraska and Iowa bearing date October 6th 1874,

I have well, faithfully and truly and in strict conformity with the instructions furnished by the Surveyor General the Surveying Manual and the Laws of the United States surveyed all those parts or portions of fractional Township 27 North of the Base Line of Range No 6 East of the 6th Principal Meridian as are represented in the foregoing field notes as having been surveyed under my direction, And I do further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the Surveying Manual printed instructions and special instructions of the Surveyor General, Of dimensions, character, construction and marking and in the manner specifically described in the foregoing field notes, and that the foregoing are the true and original field notes of said survey

J W Beaman

Subscribed in my presence and Sworn to before me this the 24 day of July A D 1875 in Cass County Nebraska
