General Description

The quality of the land in this township is above the common average. There is a large proportion of rich bottom or Valley land, situated in almost all parts of Sections and running chiefly from the East to the West thus are well adapted for grazing purposes, Hay fields, or good second rated farming lands.

The uplands or ridges are generally rolling, fair & well watered and thus adapted for cultivation.

The Township is fairly watered by small Lakes and Marshes being supplied by Springs with pure clear water.

In the first tier of townships on the East Boundary we discover an old waggon road having North and South

GENERAL DESCRIPTION.

A small portion of the land in this Township is mountainous, but its general character is rolling and level.
The abundant growth of Bunch-grass covering as it does the most of the Tp., furnishes excellent grazing land.
The soil is 3rd rate.
There is a small lake in Sec. 24 and in S. E. ¼ of Sec. 16, a Spring of fine water.
There is Marsh land in Secs. 1-2-8-9-10-11-14-15-16-17-19-26-27-28-29.
