Surveys made with Burt's Patent Improved Solar Compass, nearly new, and in first rate order. Made by T. L. & G. Gurley of Troy N. Y. in 1881
Before proceeding to subdivide this Tp., I made a change of 5 minutes in the latitude use of my solar compass by subtracting same from the reading previously given, & all other readings corrected same by observations on the sun. I also further tested instrument by reversing.

General Description.

The land in this Township is generally rolling, and covered with Buchgrass.
The soil is 2nd rate,
Much of the land is available for agricultural purposes without irrigation, but where necessary an abundance of water is furnished by White Clay and Squaw Creeks.
The Fort Sidney and Robinson and the Sidney and Deadwood Roads run through the Tp.
Fort Robinson Military Reservation covers the North-western part, the post being situated on Soft Bank of White River, at the confluence of Soldier Creek with the River.
There are a number of settlers in the Township.

GENERAL DESCRIPTION.

The surface of this Township is nearly all gently rolling, with soil of 2nd rate and covered with a fine growth of Bunchgrass making it valuable for grazing purposes.

It is well watered by White River, Little Cottonwood Creek and their tributaries, which supply plenty of water for irrigating purposes, though many parts of Tp. do not need irrigating for agricultural purposes.

There is a little Cottonwood timber along the Creeks.

Mr. Smith's ranch and improvements are in Sec. 4 and Mr. Mayfield's in Sec. 24.

There is a large meadow in Secs. 3 and 4.

The Sidney and Deadwood stage and freight road, crosses the Central part of the Tp.

There is a Settler's claim in the East half of Sec. 35.
