Township 24 N Range 6 W 6th P.M.

General Description

Township 24 N Range 6 West is mostly Prairie land, no timber being found but that which is in the immediate vicinity of the creek. The kinds of timber are Burr oak, Elm, Cottonwood, Ash, Lynn and Cedar. The soil in the North-Eastern part is 1st rate, in the Southern part 2nd rate, and in the North Western part 3rd rate. The creek in this Township is a beautiful stream of pure, clear Spring water, having a swift current, with steep banks and a bottom so miry that the stream is not fordable. There are numerous fine springs in the immediate vicinity of the creek.
