A SURVEY OF SECTIONS IN TOWNSHIPS 16 & 17 NORTH,

RANGES 9 & 10 WEST, HOWARD & GREELEY COUNTYS,

IN NEBRASKA

The purpose of this survey was to perpetuate corners which will be distrubed during the construction of Highway #22 West of Wolbach, Nebraska. These corners are all on the Greeley-Howard County line and the fourth standard parallel. Most of the corners on the project were perpetuated by the Highway Department after the construction of the Highway in 1963. The measured distances compared to the Government distances are not very consistant but considering the terrain when the original survey was made, I guess this is understandable

The only corner set on this project was the North quarter corner of Section 3-T16N-R10W, which I set under direction of Al Dearmont, Howard County Surveyor. This was set on a proportional distance between the Northeast and Northwest corners of Section 3 and on a straight line between the South Quarter Corner and the Southeast Corner of Section 34-T17N-R10W. The ties and history of all corners are found and recorded on the tie sheets which are a part of this survey.

Donovan D. Zager
LICENSED LAND SURVEYOR

DESCRIPTION OF CORNER Found 5/8"x24" rebar bent over 1.0' deep. Found 1½" pipe with 2" coupler 2' deep with 8 brick around pipe 2½' deep. Set 1"x32" galv. pipe in larger pipe with rebar in center 1" below surface of oil.

HISTORY OF CORNER This corner was found from a survey recorded by R. Harvey in Book 3, page 206 in 1901 in the Howard County survey records.

DESCRIPTION OF TIES

2.13' WSW to 7/8"x32" round smooth bar of unknown origin
This corner is 1.32' West of the S¼ corner of Section 31, Twp. 17 North, Range 9 West which is an original government stone 2' deep with 1½"x42" rebar drilled through center of stone 1" below surface of road. (See ties to S¼ Cor. Sec. 31-T17N-R9W)

Donovan D. Zager
LICENSED LAND SURVEYOR

DESCRIPTION OF CORNER Found ½"x21" rebar badly corroded. Dug around and below it. No other material. Set 1¼"x36" galv. pipe 6" deep and set found rebar in pipe at surface. Found 5/8" rebar 1' deep, 10.3' East and 3.55' North of true corner (probably centerline control point).

HISTORY OF CORNER I cound find no history on this corner but material found matches exactly with two corners west and on nearly a straight line. I accepted this as the true corner.

DESCRIPTION OF TIES Corner is 3.55' South of center of oil Hwy 22 and directly North of center of corn crib.
73.75' N to 1"x28" rebar pounded flush in yard
61.88' S to 1"x28" rebar pounded flush 2' North of center (E-W) of corn crib
33.26' N to ½"x30" rebar in bottom of ditch flush
32.26' S to ½"x30" rebar 10' up back slope of Hwy 1' above ground

Large rebars set on straight line over corner and measured with E.D.M. horizontally. Other ties slope chained.
