# General Description

The Land in this Township is with the exception of the hills in its Southern part, all fit for Cultivation.
The Bottoms is rich, good Land and the hills on the North Side of the river are full of Springs, and covered with good sweet grass.
The River water ~~Water~~ is much colder than that in the South Platte and the Stream is considerably rapid, but seldom over 4 to 5 feet deep. — the bed is fine sand and sometimes quicksand
There is only a little Cotton wood timber in Secs. 21.
The small Islands are covered with willows.

Township 15 N. Range 35 W

## General Description.

There is no running Water in this Township but the sources of the Springs are undoubtedly in the ridge along the Northern boundary Line of this Township.

The Township is well fit for Cultivation

We hereby certify that we assisted Charles Wimpf Deputy Surveyor in Surveying and Subdivid Township Number 15 North of the Base Line of Range Number 35 West of the 6th Principal Meridian, and that said Township has been in all respects, to the best of our knowledge and believe, well and faithfully Surveyed, and the Boundary monuments planted according to the instructions furnished by the Surveyor General.
